Dear Editor-in-Chief
Journal of System and Management Sciences

We wish to submit an original research article entitled "Feasibility Analysis of Boutique Business Development "Myfashionproject" In Pekanbaru" for consideration by Journal of System and Management Sciences. We confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere.

We believe that this manuscript is appropriate for publication by the Journal of System and Management Sciences.

Thank you for your consideration of this manuscript.

Sincerely,

Hamdi Agustin.

Dear Authors,

Thanks for your interest in submitting a paper to JLISS.or JSMS. As we do not have fundings for the journals from 2022. Thus we have to charge the authors 700 USD (with 20% discount, which is 560 USD) since 2022, once the paper is accepted

Please let us know if you accept this policy or not. Then we will take the next step. Thank you.

Best regards,

Mincong

Dear Authors,
Please check the comments, you have to return your revised paper before Nov 25, 2022. Thanks.
BEst,
Mincong

Reviewer 1: revision is required
the paper is interesting, I have learned something from reviewing your paper, however, I have to point out some rooms for improvement as follows:

- I don't like the way you present the abstract, please rewrite your abstract, now you use a very narrative style to describe the procedures of doing your research instead of providing a whole picture of your work. You should use a few sentences to describe:
the purpose of your study, why you did this research?
the method you used in this study, what method did you use to solve your research problem?
The results of your study: what have you got from this study?*

*the values of your study, what's your contribution to theory or practice?
Through this way, readers (including me) could have a whole picture of your work.*

- In the introduction section, you should summarize the gaps of existing literature, then present you aim to do.*
- It is not sufficient in the discussion on the results, Please provide a detailed discussion about the practical and theoretical implications.*

Reviewer 2: revision is required

The paper is interesting and within the scope of JSMS. I have learned something from reviewing this paper. However, I have some concerns for the authors to revise the paper:

- Language is not good, you need to polish the whole paper after revision.*
- The method part is good, HOWEVER, I have a question about the relationship between 2 and 3. Please explain. I WOULD SUGGEST YOU COMBINE THESE TOGETHER.*
- When you conducted the sensitivity analysis, please provide a brief discussion of the meanings of the numbers, both from theory and practices.*
- Please highlight the contributions of your work too.*

Thank you, I will do that.
