Mr Syahraini Tambak:

We have reached a decision regarding your submission to Dinamika Ilmu: Jurnal Pendidikan, "Professional Madrasah Teachers in Teaching: The Influence of Gender and the Length of Certification of Madrasah Teachers".

Our decision is to: Revision Required

REVIEWERS' COMMENTS:

The manuscript is well documented in general. However, we have some suggestions that we think may contribute to enhance the quality of the manuscript.

Literature Review: For readers/researchers outside the Islamic community, what kind of an educational institution the madrasah (which education level it corresponds to, from which age group students are educated, how long the education period lasts etc.) is should be explained in more detail.

Methods: It would be appropriate to provide more information on the questionnaire used to collect research data. For example, the eight criteria included in the survey can be shared with the readers, and the reliability and validity data obtained by the developers of the survey can be presented.

Findings: It was stated by the author(s) that ANOVA and Tukey test results are presented in Table 2. However, when Table 2 is examined, it is seen that only descriptive statistics are presented. Findings of from the ANOVA test and Tukey test have to present.

Similarity: The result of similarity checking shows a high level, 26%. The permissible level is 20%.

Language Use: Instead of Aliyah Madrasah, you'd better use "Madrasah Aliyah".

Language Use: Please check the grammar.

Language Use: There are many typos in the text (such as misspelling of words, absence of spaces between words).

Please revise the article within 2 weeks.

Best,

Dinamika Ilmu
