YOU MUST DO IT!!!
Please prepare your revised paper by doing your best to avoid any delay for
publication!!!

1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS
http://iaescore.com/gfa/ijeecs.docx (Use this file as your paper template!!)

2). Add biographies of authors as our template (include links to the 4
authors' profiles, do not delete any icons in the template). Provide links
for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID). It is
mandatory!!

3). Because tables and figures supplement the text, all tables and figures
should be referenced in the text. Avoid placing figures and tables before
their first mention in the text. Authors also must explain what the reader
should look for when using the table or figure. Focus only on the important
point the reader should draw from them. Use different PATTERNS (instead of
ONLY different colors) for presenting different results in your
figures/graphics. Prepare all your tables strictly adhere the guidelines (do
NOT as figure).

4). Please ensure that all references have been cited in your text. Use a
tool such as EndNote, Mendeley, or Zotero for reference management and
formatting, and choose IEEE style. Each citation should be written in the
order of appearance in the text in square brackets. For example, the first
citation [1], the second citation [2], and the third and fourth citations
[3], [4]. When citing multiple sources at once, the preferred method is to
list each number separately, in its own brackets, using a comma or dash
between numbers, as such: [1], [3], [5]. It is not necessary to mention an
author's name, pages used, or date of publication in the in-text citation.
Instead, refer to the source with a number in a square bracket, e.g. [9],
that will then correspond to the full citation in your reference list.
Examples of in-text citations:
    This theory was first put forward in 1970 [9].
    Zadeh [10] has argued that ...
    Several recent studies [7], [9], [11]-[15] have suggested that....
    ... end of the line for my research [16].

5). Please present all references as complete as possible and use IEEE style
(include information of DOIs, volume, number, pages, etc). If it is
available, DOI information is mandatory!! See
http://iaescore.com/gfa/ijeecs.docx
