Manuscript Number.: JIL-2023-60379
Title: Semi-Aerobic Landfill System as Alternative Solution for Indonesian Landfill
Journal: Jurnal Ilmu Lingkungan

Dear Khaira Misrawati,

I am writing regarding your manuscript entitled : "Semi-Aerobic Landfill System as Alternative Solution for Indonesian Landfill" with ID: JIL-2023-60379 which you submitted to the to Jurnal Ilmu Lingkungan.

Based on the Reviewer feedback as well as my own reading of your manuscript I want to strongly encourage you to undertake revisions and then resubmit your manuscript for consideration for publication in the Jurnal Ilmu Lingkungan.

I hope that this feedback will be helpful to you in developing your research, and that you will be encouraged to undertake the revisions within the next few weeks. Please don't hesitate to contact me if you have any questions about the comments above.

To submit a revision, go to <https://ejournal.undip.ac.id/index.php/ilmulingkungan/index> and log in. You will be able to upload the revision and detailed response to reviewer comments.

When you submit a revised version of your paper, please include a statement explaining how this version reflects the feedback received from the Reviewers and the editors. Also, note if, and explain why, you decided not to follow any points made by Reviewers or editors.

Finally, we would appreciate it if you would acknowledge receipt of this message and, as soon as possible, let us know a) whether you plan to rewrite your paper as well as b) when you would plan to submit a new version to the Jurnal Ilmu Lingkungan for review.

Reviewer A:

I have several notes for the discussion (improvement) of this article.

The explanation of research method needs to be improved. For example, what are the documents? How to collect the previous research? How the manners to select the previous research? Why the researchers prefer to use SWOT Analysis? The are many alternatives of the analysis techniques, but the researchers selected SWOT Analysis?

I suggest that before the section of SWOT Analysis, this article to disscuss the data and information which used in this research. So, the readers could understand the input or the results for the SWOT Analysis.

The argumentations to support the conclusion need to be elaborated. This article has the conclusion concerning the strategies for the implementation of the semi-aerobic landfill in Indonesia. However, the research needs to be more explained in detail.
