[Details](#)

Dear Authors,

Your paper is currently in the final stages of preparation for online publication. Upon completion, we'll promptly send it to you for your final approval.

To settle the journal processing fee of \$300, please use the following account details:

- Account Holder Name: Verein zur Förderung einer natur- und sozialverträglichen Ernährungs- und Landschaftskultur e. V.
- Phone Number: +4917647749431
- Address: University of Kassel, Nordbahnhofstr. 1a, 37213 Witzenhausen, Germany
- Bank Name: VR-Bank Mitte eG
- IBAN: DE24 5226 0385 0008 8215 00
- BIC: GENODEF1ESW
- Reference (**Highly Important**): Your paper ID number

Here are three crucial points to note:

1. **Reference Number:** Please include your article number (e.g., 644) in the payment reference. This will help us associate the payment with your paper.
2. **Payment Amount:** The fee is \$300. As the transfer will be in euros to a German bank account, ensure the amount sent is not less than 275 euros. Amounts below this cannot be accepted due to currency conversion and charges.
3. **Payment Confirmation:** Kindly send us a confirmation of the payment by the **30th of December** at the latest.

Your cooperation in this matter is greatly appreciated. Should you have any queries or need further assistance, do not hesitate to contact our editorial team.

Warm regards,
Diana

Subject: Inquiry Regarding Payment Methods for Journal Publication

Dear Future of Food Journal Editorial Team,

I hope this email finds you well. I am reaching out to inquire about the payment process for journal publication fees.

I am in the process of preparing my manuscript for submission (Paper ID 656) and I am keen to understand the available payment methods for covering the publication charges. Specifically, I am interested in using either credit card or PayPal for this transaction.

Could you please provide detailed information on how to proceed with the payment using these methods? Additionally, if there are any specific instructions or forms that need to be filled out, kindly include them in your response.

I appreciate your prompt attention to this matter, as it will assist me in completing the necessary arrangements for the publication of my work in a timely manner. If there are any deadlines or specific procedures I should be aware of, please do not hesitate to inform me.

Thank you for your assistance, and I look forward to hearing back from you soon.

Best regards,

Dear Future of Food Journal Editorial Team

Thank you for providing the final layout of our paper (Paper ID 656). I appreciate your efforts in reaching this stage. However, upon reviewing the document, I have identified several key areas that require revision to ensure accuracy and completeness. The specific points include:

1. The second author's name is "ELFIS" not "ELFIS1". The number 1 indicates the author's affiliation (superscript number), and is not part of the author's name.
2. The last author's affiliation (UMMUL MUTHMAINNAH) is not number 5 but should be number 1, namely "Department of Agrotechnology, Riau Islamic University, Pekanbaru, Indonesia"
3. The correct affiliation for the number 5 author is "Department of Biology Education, Universitas Islam Riau, Pekanbaru, Riau, Indonesia".
4. The correct title of Table 1 is "Diversity of Mangrove Species Utilization in Rokan Hilir and Bengkalis Regencies"
5. "In Table 1, Page 8, under the section "Nutrient Content - Sonneratia caseolaris (L.) Engl," in the last sentence, "The fruit is peeled and crushed before being consumed for later use in the manufacture of juice, lunkhead, and shrimp crisp (Jariyah et al. 2014; Sahil and Soamole 2013)", there is a spacing issue between the texts, causing them to be separated. The text should be a single sentence. Additionally, at the end of the reference, there is a space between the year "Soamole 2013" and the closing parenthesis ".)" This space should be removed.
6. In Table 1, Page 9, under the section "Nutrient Content - Rhizophora mucronata Lam," in the last sentence, "Fruits are boiled, peeled, soaked in ash or salt solution, dried and floured, making dry cakes or wet cakes (Priyono 2010; Sahil and Soamole 2013)," there is a spacing issue that separates the text. The text should be a single sentence. Furthermore, at the end of the reference, there is a space between the year "Soamole 2013" and the closing parenthesis ".)" This space should be removed.
7. In Table 1, several texts have a significant gap between one word and another. In those texts, there should only be one space. For example, in the text:
 - "It contains high carbohydrates so it has the opportunity to be explored as an alternative food ingredient that can be processed into flour (Mulyatun 2019)." and "The fruit is consumed regularly during the harvest season by boiling, peeling, soaking, and grating before being consumed or cooked fruit with salt, dried, and consumed." (Page 8, under the section "Nutrient Content - Bruguiera gymnorrhiza (L.) Lamk).
 - "(Hardoko et al. 2015; Mile et al. 2021; Wang'ondur et al. 2013)." (Page 9, under the section "Nutrient Content - Rhizophora mucronata Lam).
 - "Nipah flour contains high fibre with low fat and calorie content which has the potential to be used as food for people on a diet." dan "Nipa fruit flour contains nine of the twelve essential amino acids, histidine, arginine, threonine, valine, methionine, iso-leucine, leucine, phenylalanine, and lysine which are needed by the human body." (Page 9, under the section "Nutrient Content - Nypa fruticans (Thunb.) Wurmb).
 - "If managed properly, the resulting sugar production is better than cane sugar and has a higher sucrose content." And "After being processed, the leaf stalk fibre can also be made into ropes and bristles" (Page 9, under the section "Various food products - Nypa fruticans (Thunb.) Wurmb).

To optimize the revision process, I have attached a file highlighting the specific sections that need attention. Please find the highlighted suggestions document, which provides a clear indication of the points that require revision.

Please let me know if you have any questions or need further clarification on any of the suggested revisions.

Best Regard,
Prima Wahyu Titisari
